FERNS

Add ferns to your Wildflower Garden for Elegance and a touch of Finesse.

1f-BERRY BLADDER FERN-Cystopteris bulbifera.1-2'.Fine narrow fronds. Berries attached to underside. Shade. Rockery!

2f-BRACKEN FERN-Pteridium aquilinum.2-4'.A single frond spreading broadly. If damaged another will appear.Underground stolens. Plant 2" deep and mulch. Best in dry open shade.

3f-EBONY SPLEENWORT FERN-Asplenium platyneuron.6-10".Fine little fern for rockery & niches. Partial shade. Indifferent to soil.

4f-MAIDEN HAIR FERN-Adiantum pedatum. Delicate showy fronds held horizontally on wiry 12-18" stems. Sends up an occasional frond during the summer.Ebony stems. Shade or light sun. Easy.
1f thru 4f 40¢ each 3-\$1.10 of a kind.

5f-CHRISTMAS FERN-Polystichum acrostichoides.12-20".Dk green narrow fronds that are evergreen until new ones appear in spring. Can be grown indoors. Shade or partial shade.

6f-LADY FERN-Anthyrium Filix-femina.2-3'.Very graceful fronds & fine cut foliage. Open sun or partial shade. Easy and very neat.
5f and 6f 45¢ each 3-\$1.25. of a kind

7f-CINNAMON FERN-Osmunda cinnamomea.2-4'.Sturdy light green foliage. Fertile fronds appear first & die as fiddles develop. Prefers shade, but will do well in sun with ample moisture.

8f-INTERRUPTED FERN-Osmunda claytoniana.20-4'.Ex.light green foliage. A few fronds develop fertile seed spores midway. Upland woods. Moisture.

9f-OSTRICH FERN-Pteritis nodulosa.3-4'.An ex. fern beside water or along a shaded rocky wall or moist open woods. Graceful plumey fronds.
7f thru 9f 50¢ each 3-\$1.35. of a kind

10f-ROYAL FERN-Osmunda regalis.2-4'.A luxuriant fern that is different. A faint touch of maroon in its foliage is predominate on the uncurling fiddles in spring. Interesting fertile fronds in June-July. Humusy soil, moisture and a light shade is all it asks to put on a real display. It's tops in ferns.

11f-RUSTY WOODSIA FERN-Woodsia ilvensis. A little gem only 4 to 6" high. Grows in rocky crevices where humus has accumulated. Plant among rocks where pockets have been filled with humus. Will form a dense mat in tufts. Full sun and well drained location.
10f and 11f 55¢ each 3-\$1.50 of a kind

12f-OAK FERN-Dryopteris didjuncta.A dainty little fern with a 4" dark stem which extends into the little 3 to 4" triangular frond. Forms little colonies in shade among rocks & under trees. Ex.groundcover among the Ladyslippers. 45¢ 3-\$1.25.
